INDEX

PARTICULARS OF THE EXPERIMENTS PERFORMED

Sr. No.	Name of Experiment	Page No.	Date of Experiment	Signature
1	Mathematical Logic	1		
2	Finding Inverse of a Matrix	6		
3	Solution of Linear Equations using Matrices	12		
4	Commission, Brokerage and Discount	19		
5	Insurance and Annuity	23		
6	Fitting of Linear Regression	27		
7	Applications of Linear Regression	31		
8	Time Series	35		
9	Index Numbers	41		
10	Increasing and Decreasing Functions	45		

INDEX

PARTICULARS OF THE EXPERIMENTS PERFORMED

Sr. No.	Name of Experiment	Page No.	Date of Experiment	Signature
11	Maxima and Minima	50		
12	Applications of Derivatives to Economics	55		
13	Linear Programming Problems	60		
14	Assignment Problems	70		
15	Sequencing	78		
16	Random Variables	83		
17	Binomial Distribution	87		
18	Poisson Distribution	90		
19	Applications of Definite Integration	92		
20	Applications of Differential Equations	95
